Hi Barry,

It's amazing what one green stock will do! Seriously, though, we have had quite a bit of interest from investors recently, and Chardan has a "non-deal" roadshow scheduled for us next week.

Believe me when I say I am not used to getting money thrown at me, but I have also been on Wall Street long enough to know to take money when available. A friend of mine wants to do some straight equity (with generous, but toothless, warrant coverage) and the timing of your trip to NY is perfect.

Can you please set up a meeting time for us with Joe Reda from Chardan; Yoav is on Safari I believe! Look forward to seeing you.

Thanks  
Rob

Yes we could- but I would like to get a position in the Company as well. I can create a lot of value for us

Dr Frost would invest as well alongside me and he would be a good person to help bring in some potential cash flow opportunities in the medical space.

I will be in NY next week lets meet. Before then I would like you to think about how much money my group can come in with. I think \$1,500,000 would be cool. It would be 3-4 investors including myself.

I am also intrigued by the idea of the royalty stream from the medical imaging contrast agents; can we take a deeper look?

Absolutely. Thanks Yoav.

Barry, I am traveling to Palo Alto most of the afternoon Thursday, then away until Wednesday. It's my son's graduation on Sunday, but other than that, as always I am (at least) semi-working. If you prefer, we can meet in person in New York any day beginning Wednesday. Let me know.
